

I wanted to re-post this from MCK at Kansas Preppers Network. This is one of the better cases for our right to keep and bear arms that I've seen. At the end I've added a couple of my favorite YouTube Videos. Criminals will always have guns, and so will the governments of the world, and until those 2 groups turn in all of their guns, don't even ask me to turn over mine.

I keep my guns not to hunt. I don't normally hunt, we grow and raise our food. My guns are not to defend myself, we live in one of the safest areas in the nation. I keep my guns because as long as myself and 80 million more Americans own approximately 258 million guns in this country, its doubtful that we would ever be invaded by a foreign country. It also keeps our government fearful of the populace, and as long as they are afraid of we the people, we are free.

You won't see this data on the US evening news, or hear politicians disseminating this information.

Guns in the hands of honest citizens save lives and property and, yes, gun-control laws adversely affect only the law-abiding citizens

Take note my fellow Americans, before it's too late!

The next time someone talks in favor of gun control, please remind them of this history lesson.

With guns, we are 'citizens.'

Without them, we are 'subjects'.

During WWII the Japanese decided not to invade America because they knew most Americans were ARMED!

If you value your freedom, please spread this anti-gun control message to all of your friends.

The purpose of fighting is to win. There is no possible victory in defense. The sword is more important than the shield, and skill is more important than either. The final weapon is the brain. All else is supplemental.
